

Farooq Bin Munir

Software Engineer & Full-Stack Web Developer

Lahore, Pakistan

Profile

Software Engineer and Full-Stack Web Developer building modern web solutions with a strong focus on WordPress, WooCommerce, Shopify and custom web development. Comfortable across frontend and backend (HTML, CSS, JavaScript, jQuery, PHP and MySQL), also working with Laravel, React and Next.js. I aim for websites that are responsive, functional, maintainable and aligned with the business behind them.

Experience

Software Engineer
Jan 2026 – Present

Rex Technologies · Full-time · On-site · Johar Town, Lahore

Working as a Software Engineer on professional software and web development projects, building and maintaining solutions as part of a development team.

WordPress & Shopify Developer
Aug 2024 – Sep 2026

Lahore Design Studio · Part-time · Remote · Gulberg III, Lahore

Built and customized WordPress and Shopify websites for the studio's clients: custom Liquid logic, Shopify app integrations, multisite work and responsive layouts.

Selected projects

- **Kacific** (WordPress Multisite): enhanced functionality, optimized layouts and kept the sites responsive across the network.
- **Volt Broadband NZ** (Shopify): custom design, broadband map integration, Subify subscription plans and EasyFlow add-ons.
- **Lahore Design Studio** (WordPress): the studio's own website.

WordPress Developer
Nov 2023 – Dec 2025

Wiselogix Technologies · Full-time · On-site · Model Town, Lahore

Developed custom WordPress plugins and themes, built JavaScript/jQuery functionality and improved responsiveness and performance, working with PHP, MySQL and APIs on client websites.

Selected projects

- **USB Flash**: custom quote system with e-commerce style cart behaviour.
- **Seen Training**: bilingual English/Arabic site; filtering and shortcodes rendering custom post type content as card grids.
- **Belleza Latina**: JavaScript functionality and styling.
- **The Singles Run Club**: member matching features (friends, invites, matchmaking).
- **ITI NZ, Formcraft, Aid L'Shalom, HIH Group, Hujrat**: WordPress development and customization.
